PAID training to prepare you for the workplace

The summer YJC program provides part-time job placement during the school year for youth aged 15 to 18, helping multi-barrier high school students make encouraging educational and career choices. The focus will be on youth who face challenging life circumstances to experience a positive transition between education and work.

Participants receive a \$15 per hour stipend for attending the 20 hours minimum online job-readiness workshop class.

Eligible job seekers must be between 15 to 18 years old; attending school; not currently working; and have internet access.
